PROFESSIONAL EXPERIENCE

ICE Electronics International

Project Manager

May 2026 – Present

- Currently coordinating project execution remotely, maintaining communication with project stakeholders and monitoring progress toward the November 2026 completion target.
- Led project kickoff and coordinated project development for the construction of specialized electrical, electronics, and hydraulic workshops.
- Coordinated project activities across stakeholders, contractors, and project teams, ensuring alignment with project requirements and schedule.
- Developed and maintained the project schedule, coordinating activities and tracking progress toward the expected November 2026 completion.

Authorized Agent

March 2022 – July 2026

- Reviewed contracts and project documentation
- Managed administrative procedures for the company's participation in public and private tenders in Panama.

RI Group Panama

Production lead

Jan. 2026 – April 2026

- Promoted to Production Lead for PH The Walker in January 2026, managing day-to-day site operations and coordinating a workforce of 60+ personnel. Developed construction schedules, planned daily activities, procured materials, and coordinated field resources.

Works Supervisor and PM Assistant

Feb. 2024 – Jan 2026

- Co-led the completion and handover of PH Mini Design House 57 (950m², 20 stories) after the original contractor abandoned the project, overseeing masonry and finishing activities and managing occupancy permit procedures under a limited closeout budget and tight deadline.
- Supported project management activities for PH Amazonas (1,200m², 32 stories), including project budgeting and kickoff coordination, before supervising piling and foundation construction.
- Supported the project budgeting and kickoff for PH The Walker (900m², 35 stories) as a Project Management Assistant, then supervised construction from piling through the 12th-floor slab.
